

**Overview** Multi-choice test that measures the knowledge of SSIS architecture, components, control flow, data flow, transformation, SQL server tasks, SSIS administration, debugging, logging, security deployment, performance, package scheduling, execution and configuration.

**Relevant Job Roles** SSIS Developer, Application Developer

**Details**

**Language** English (US)

**Average Testing Time (minutes)** 10 minutes

**Allowed Time (minutes)** 15 minutes

**Maximum Number of Questions** 12 questions

**Number of Sitzings** One

**Test Type** Multiple Choice - CTT

**Sector** Information Technology

**Scores Reported**

- Overall Score
- Architecture
- Data Flow and Tasks
- SSIS Administration

**O\*NET Competency** Database User Interface and Query Software

**Knowledge, Skills, Abilities And Competencies Measured**

- The following areas are covered:
- Fundamentals and architecture
  - Components
  - Control flow
  - Data flow
  - Transformation
  - SQL server tasks
  - Debugging and error handling
  - Logging, transaction management and configuration
  - Security and deployment
  - Performance tuning
  - Package scheduling, execution and configuration
