SQL Server Analysis Services (SSAS)
Assessment Fact Sheet

SHL.

Overview

Multi-choice test that measures the knowledge of SSAS database, querying multidimensional analysis solutions, cube hierarchies, measures, dimensions, power BI, DAX, MDX, tabular model data access and security.

Relevant Job Roles	Big Data Analyst - SSAS, Application Developer, SSAS Developer

Details

Language	English
Average Testing Time (minutes)	08 minutes
Allowed Time (minutes)	15 minutes
Maximum Number of Questions	12 questions
Number of Sittings	One
Test Type	Multiple Choice - CTT
Sector	Information Technology
Scores Reported	• Overall Score • SSAS and MDX • Cubes and Dimensions • Tabular Modeling
O*NET Competency	Database User Interface and Query Software

Knowledge, Skills, Abilities And Competencies Measured

The following areas are covered:

- Designing a SQL server analysis services database
- OLAP modeling
- Querying multidimensional analysis solutions
- Types of deployment
- Cubes and dimensions
- Cube hierarchies
- Cube measures and measure groups and Cube security
- Power BI and SSAS
- Processing SSAS cube
- Tabular modeling
- Table measures and hierarchies
- Data access and security
